THE TELECOMMUNICATIONS ACT OF 1996 )

FILED

OCT 30 2003

INDIANA UTILITY  
REGULATORY COMMISSION  
CAUSE NO. 41657

You are hereby notified that on this date, the Indiana Utility Regulatory Commission has caused the following entry to be made:

In Appendix One to our July 2, 2003 Compliance Order, the Commission directed BearingPoint<sup>1</sup> to file a report by December 1, 2003. The Commission further indicated that it would determine how best to proceed after hearing from SBC Indiana<sup>2</sup> and any interested parties.

Upon further consideration, we find it appropriate in this docket entry to modify the filing date for BearingPoint's report and allow an opportunity for reply comments from both BearingPoint and parties. The following procedural schedule is now in effect through the end of 2003 for Performance Measure-related reports, affidavits, comments, and supporting documentation:

**November 21, 2003:** BearingPoint to file its report, the content of which should comply with the July 2 Compliance Order, as modified by this docket entry, or subsequent entries.

**December 9, 2003:** SBC to file affidavits and supporting documentation regarding its view of the status of the BearingPoint PM Audit and additional validation efforts that BP may have undertaken at SBC's request, as well as its response to the BearingPoint filing(s) of November 21. Other parties may respond to the November 21 BearingPoint Report.

**December 31, 2003:** BearingPoint should file a reply to SBC's comments. Interested parties submit comments on SBC's December 9, 2003 filing.

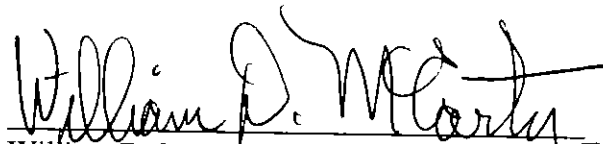

<sup>1</sup> BearingPoint will also be referred to as "BP" in this docket entry.

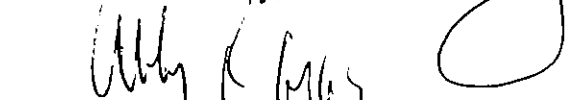

<sup>2</sup> SBC Indiana will also be referred to as "SBC" or "SBCI" in this docket entry.

This schedule both supersedes and clarifies the schedule listed in the July 2 Compliance Order.

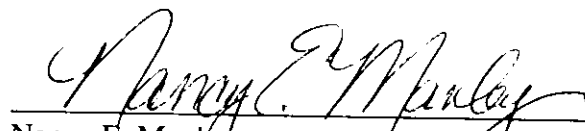

A subsequent entry will be issued and better identify our expectations for BearingPoint's report, and set forth expectations for SBC's initial comments. We will also address the question of whether BearingPoint should consider Hybrid PM Users Guide – Version 1.8 in its reporting of test results.

**IT IS SO ORDERED.**
